HOW TO TAME EMOTIUMS

Far, far away... and many years ago... magical **GNOMES**
lived in the World, hidden from human eyes, but very
close to the human heart.

①

But one day,
GNOMCHESKA
was born in this World.
She had no **EMOTIUMS**.

②

Gnomes have tamed wild forest spirits - **EMOTIUMS**,
so that they could help them with daily routines.

③

Together they did great things, which only the union
of a gnome and an Emotium is capable of.

She secretly watched the miracles that
the gnomes created along with their
Emotiums. Still, she felt nothing and was
devoid of desires.

She wandered the World like a ghost.
And no one noticed her...

Once Gnomcheska found a golden bead in the forest. Its light piqued the girl's desire and curiosity...

It was her lost spirit of

CURIOSITY.

Gnomcheska seemed to wake up from a long sleep and felt something completely new and unknown to her. And immediately she wanted to find and tame other Emotiums. Now she wanted to know what other secrets the spirits were hiding.

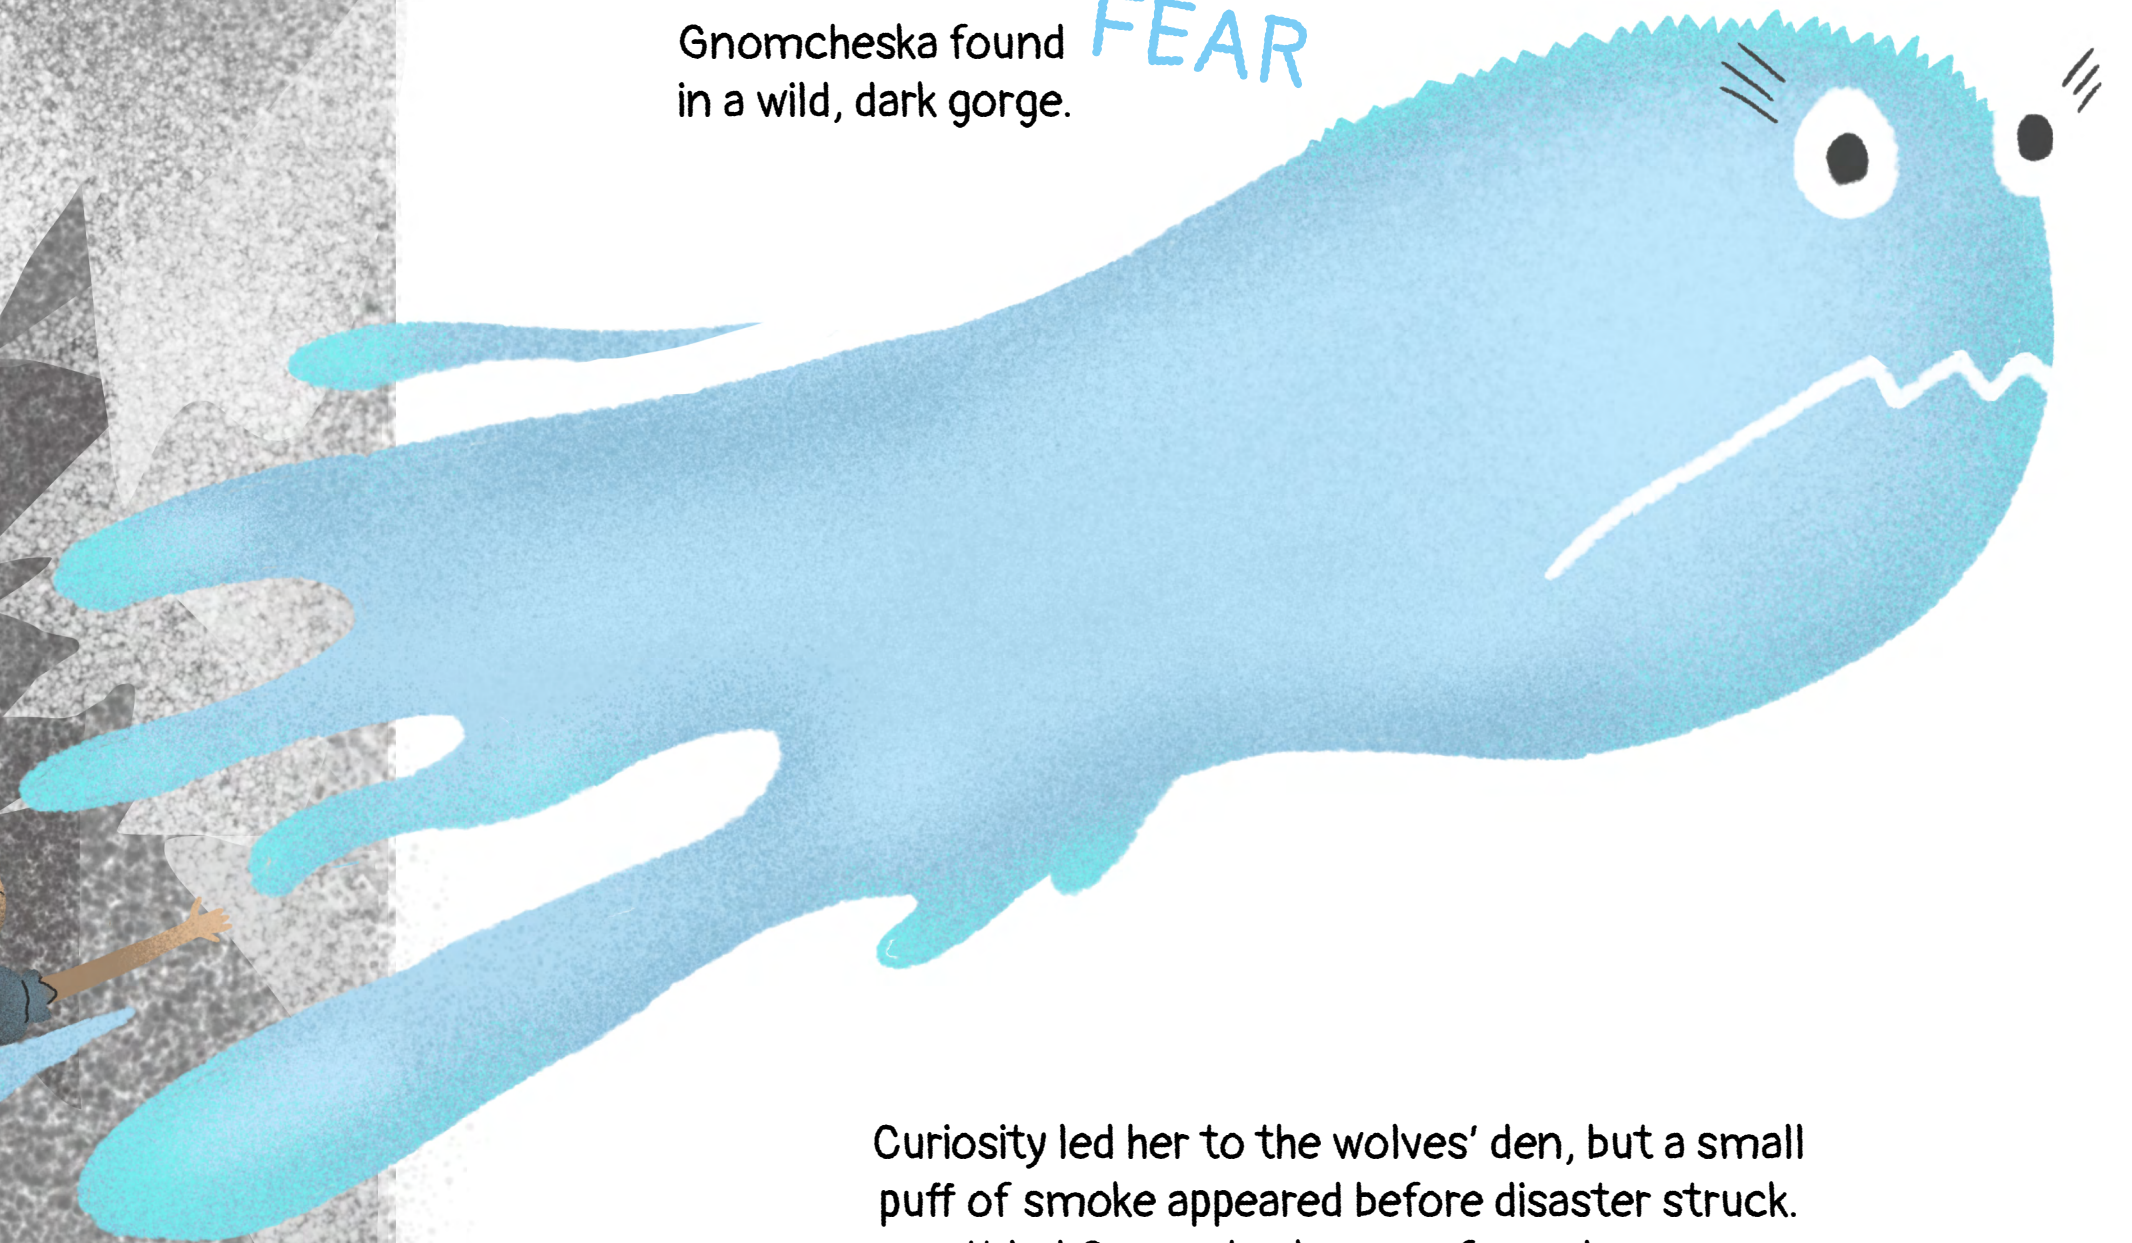

She went on a journey where incredible adventures awaited her.

Gnomcheska found
in a wild, dark gorge.

FEAR

Curiosity led her to the wolves' den, but a small
puff of smoke appeared before disaster struck.
It led Gnomcheska away from danger.

In the secret city of witches,
forgotten by humans and gnomes,
Gnomcheska met ancient shamans.
Still, she could not repeat their
strange dance, so she hid under a
tree, where she experienced

SHAME

Emotium completely swallowed Gnomcheska, and she could not get rid of its sticky and stringy body for a long time.

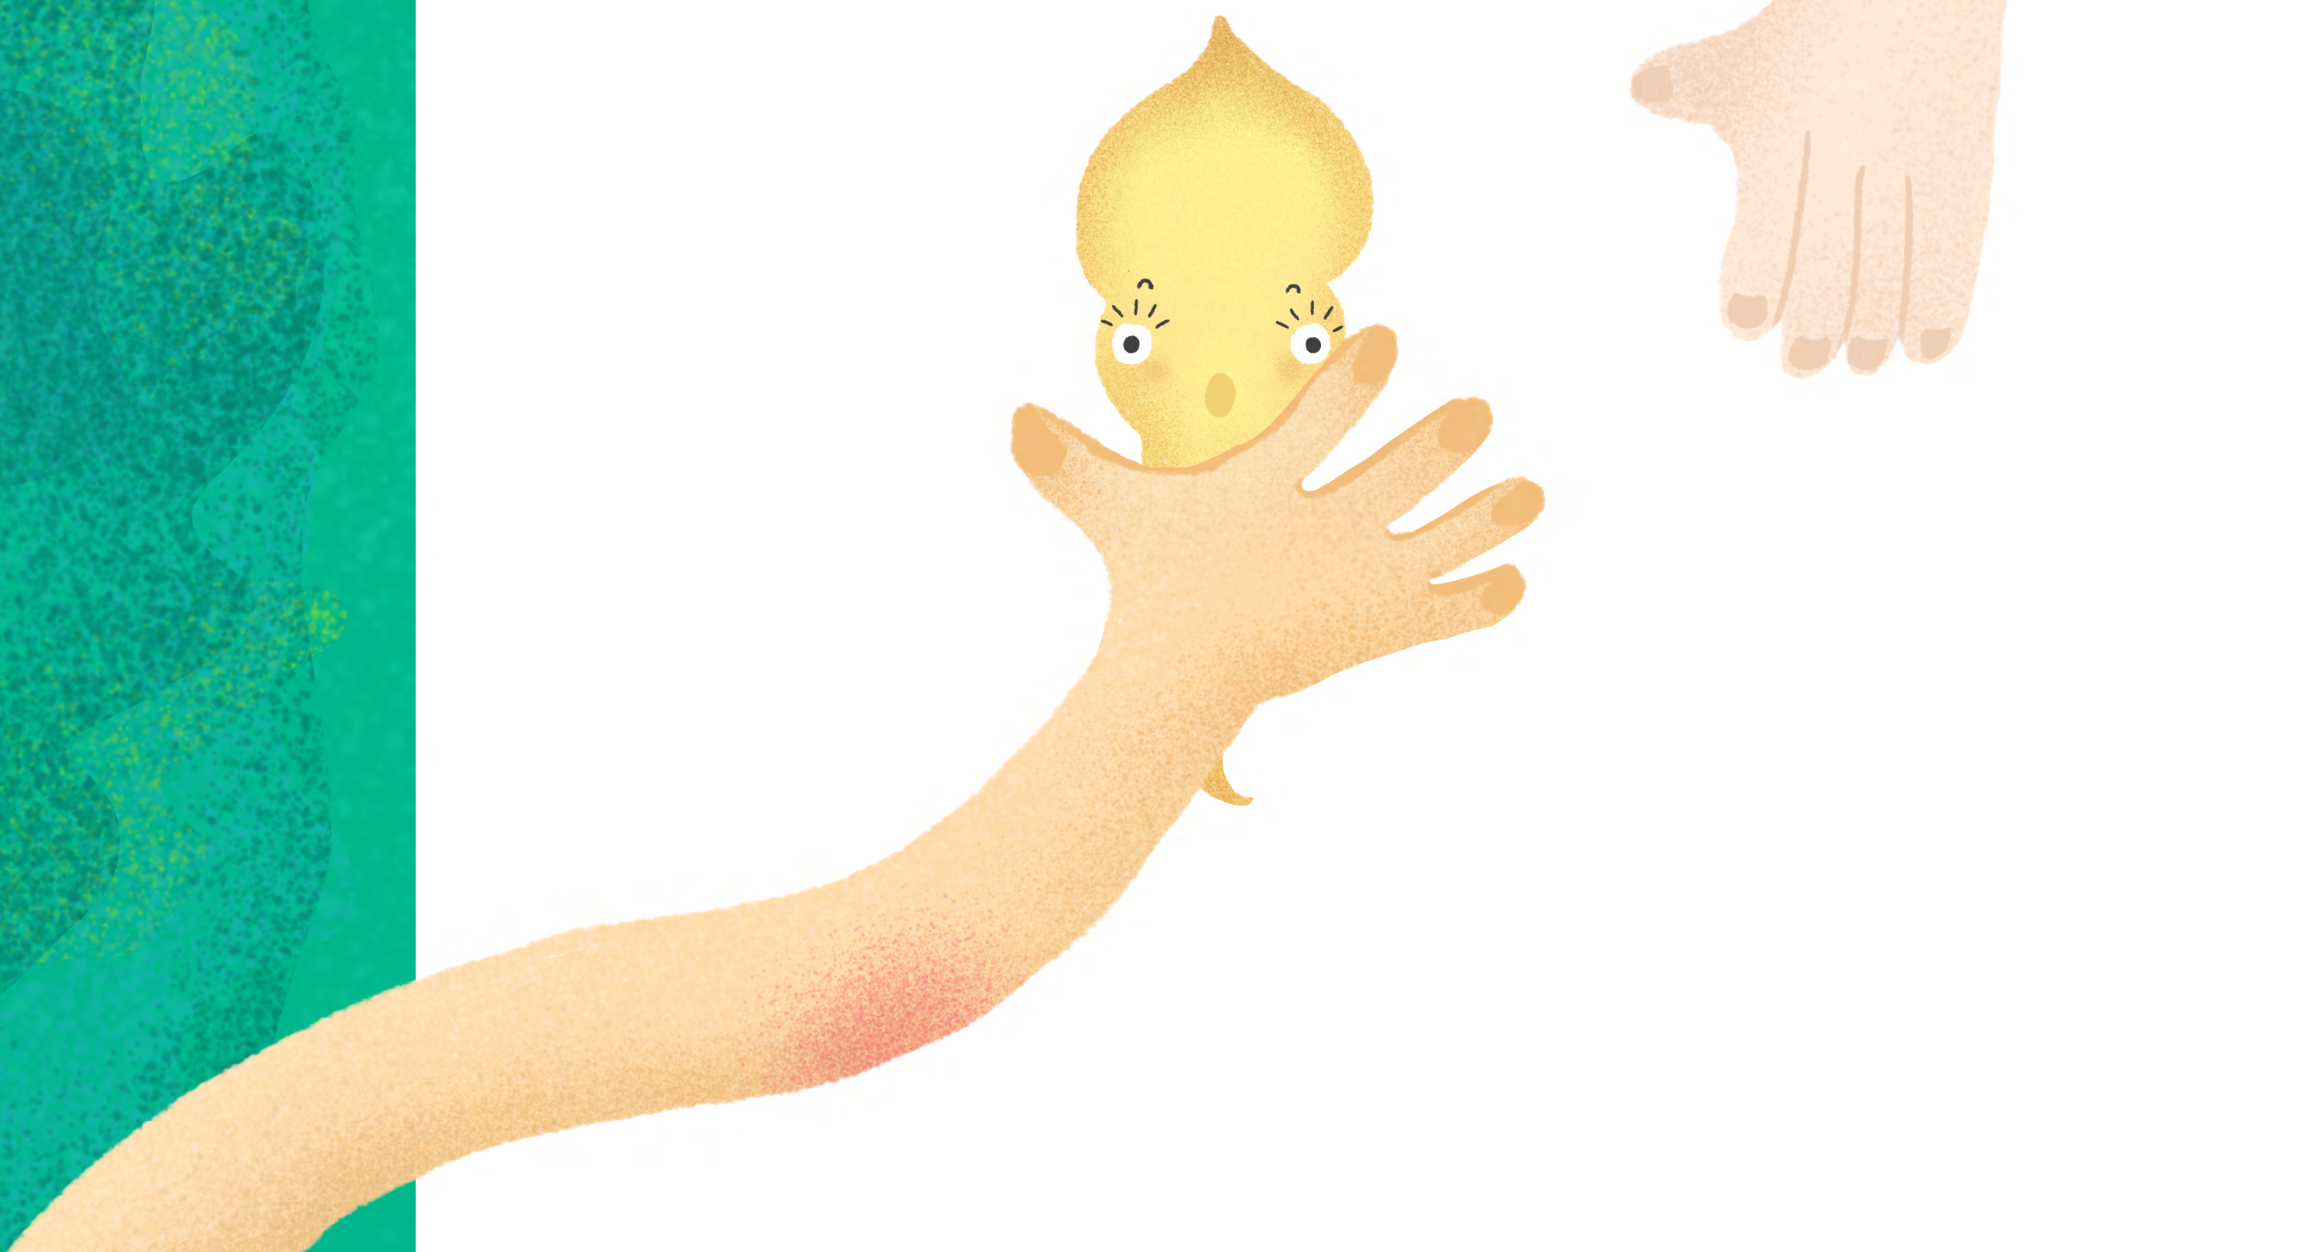

And the next day Gnomcheska met a boy who had a birthday. He was upset and cried. That boy was wrapped in green moss – the spirit of

SORROW

It was because noone came to him for the holiday.

Gnomcheska gave the boy a piece of her first Emotium – Curiosity.

Playing with the spirit,
they found

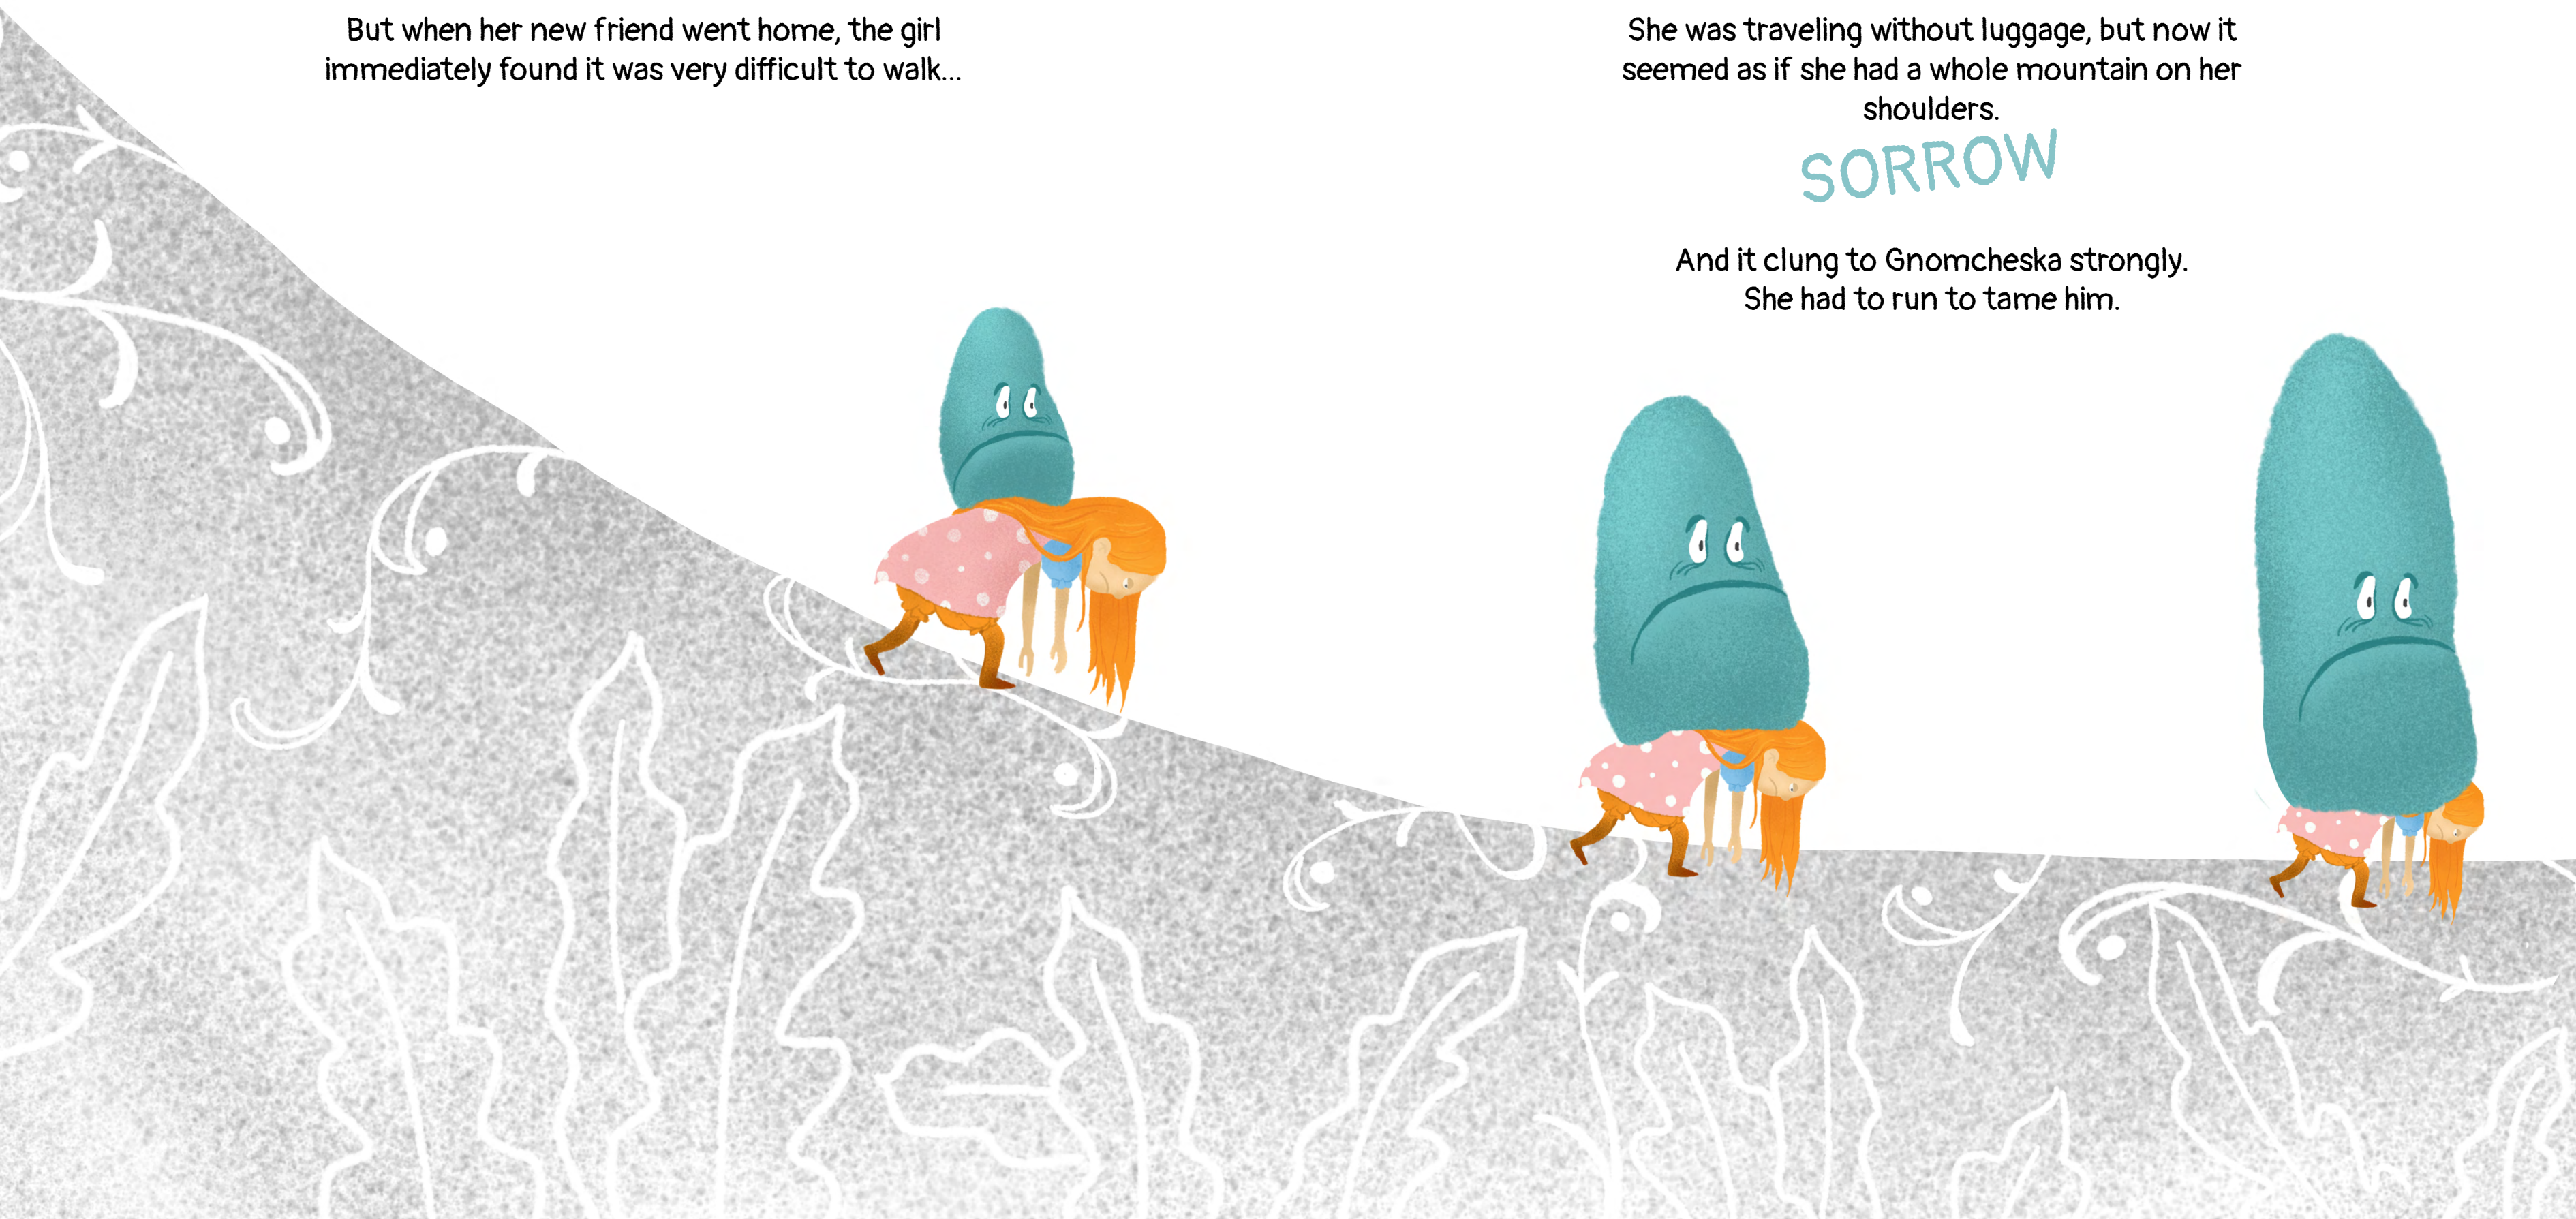

JOY

But when her new friend went home, the girl
immediately found it was very difficult to walk...

She was traveling without luggage, but now it
seemed as if she had a whole mountain on her
shoulders.

SORROW

And it clung to Gnomcheska strongly.
She had to run to tame him.

One day, Gnomcheska wandered into a dark forest, where she saw on a tree a bird with an incredibly beautiful tail.

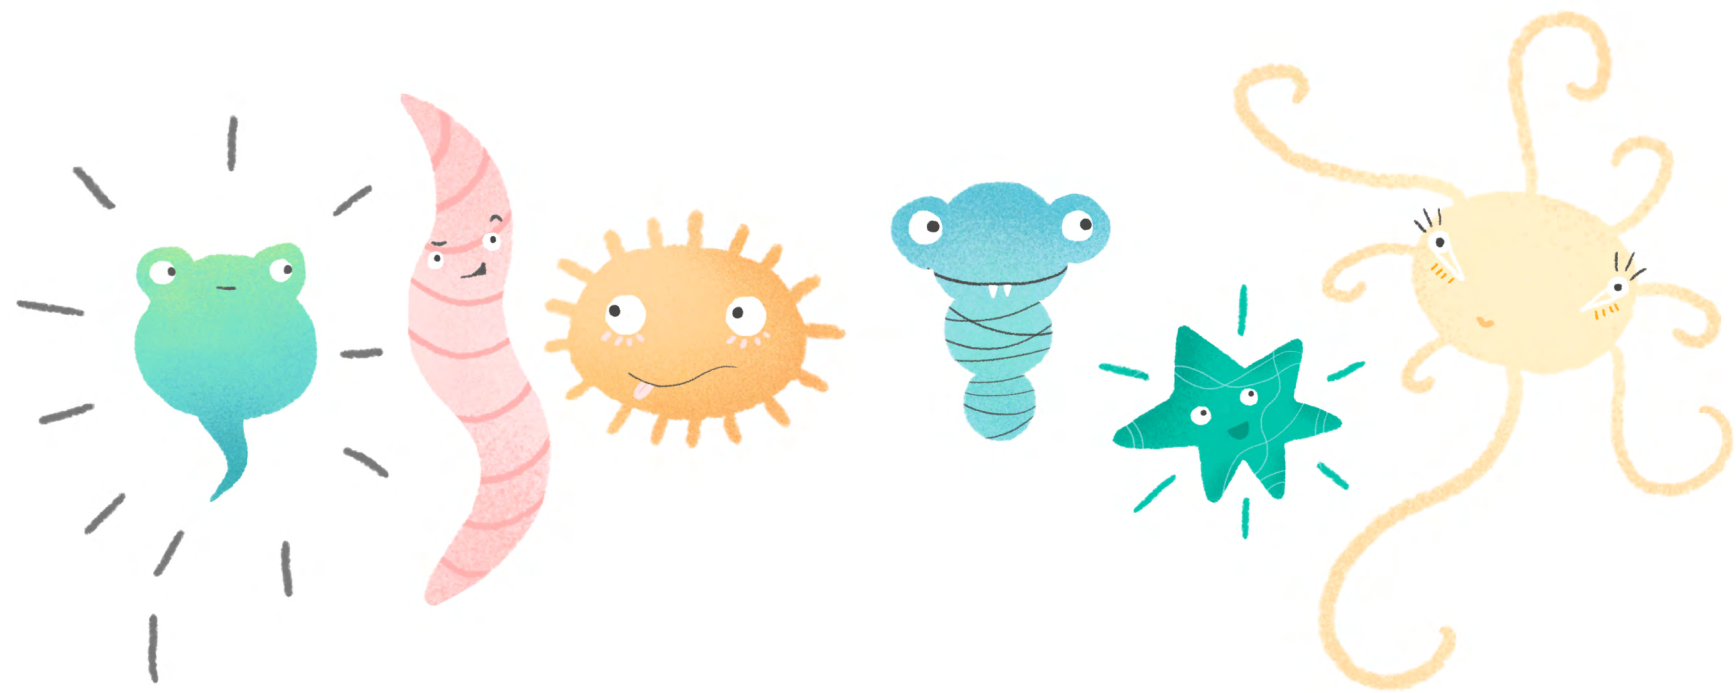

And she wanted such a ponytail for herself.

So, Gnomcheska met a new spirit -

ENVY

Gnomcheska has been traveling the world
for a long time, meeting new spirits.

They fascinated her with their beauty and
diversity. Some Emotiums she was afraid
of, others she met with an open heart.

When Gnomcheska returned home, she was not alone any more. All the deeds and affairs of the gnomes became clear to her. But the most important thing is that the girl made friends with Emotiums that taught her new things every day and opened the world.

Now it is a world where everything is possible.
